

**Tehama County Sheriff's Office
Electronic Health Record (EHR) RFP**

**Addendum #1
September 29th, 2025**

- 1. What's the current budget (existing spend) and budget for this project?**
Up to \$1,500,000.00
- 2. What other EHR systems have you already previewed (via demo) related to this RFP?**
No systems have been reviewed related to this RFP. The county reserves the right to request a demo from high-scoring bidders that meet the minimum requirements before award of the RFP.
- 3. Do you dispense medications and track medication inventory?**
Yes, but currently not electronically. This is tracked on paper MARs
- 4. Which Labs are a "must" requirement to interface with the EHR?**
Currently, the facility contracts with Quest for labs
- 5. Which other Interfaces (e.g. HIE, Immunization Registry etc.) are a "must" to connect with the new EHR?**
Medi-Cal / Medicaid Eligibility (AEVS, MEDS)
Behavioral Health/SMHS Systems
Public Health Immunization Registries
Prescription Drug Monitoring Programs (PDMP)
Tehama County Health Services Agency
Labs
Radiology/PACS
- 6. Do you have any other systems which are a "must" to integrate with the new EHR?**
Jail management system, pharmacy vendor, labs, radiology, CA DHCS AEVS
- 7. Does the vendor need to be licensed in your state prior to RFP submission.**
Yes
- 8. Can you provide sample reports, forms, notes, etc.**
We currently do not have an EHR.

9. Do you provide Mental or Behavioral Health services? If so, please summarize services.

Yes- the facility ensures the provision of screening, assessment, medication management (inclusive of Medication-Assisted Treatment (MAT), counseling, psychiatry, and crisis support services.

10. Are there any restrictions, whether based on preferences, legality, contracts, or security concerns, that prevent you from partnering with companies providing employment in conflict-prone overseas regions (ie: Iran, Pakistan)?

Yes

11. Can you provide a list of all reports/criteria required?

Monthly client report to include number of new intakes, screenings, assessments, dental visits, eyeglass visits, suicide watches, suicides, overdoses, patients on MAT, patients with HIV/Hep C, type and volume of encounters, deaths in custody, hospitalizations, ER trips, and hospital days
