

Statement of Susan Price, Candidate for Tehama County Supervisor – District 4

Occupation: Grant Writer

We need fiscally responsible, practical, and transparent decision-making in Tehama County. With over 20 years of elected and appointed experience, I offer a proven track record of dependability and the expertise to navigate complex governmental issues for our community.

My background includes serving 8 years on the Corning City Council and 6 years as a staff member to two U.S Senators. I have worked extensively with cities, counties, and special districts, always prioritizing facts before making critical decisions.

I have demonstrated the ability to deliver results. Over the last two decades, I have procured and implemented more than \$43,000,000 for northern California projects, including Tehama County, and its cities and communities. These included water, wastewater, public works, economic development, public safety, affordable housing and rehabilitation, and other local projects.

My qualifications are backed by a B.A. in Sociology from Georgetown University, a Master of Public Administration degree from CSU Chico, and a Certificate in Land Use and Environmental Planning from UC Davis. My husband is an Army Colonel veteran and a retired police officer.

I am a “get it done” leader who will responsibly deliver for the residents of District 4. I ask for your vote on June 2nd.
