

I am someone who stands up to government pressure and refuses to bow to political intimidation. I will always stand for honesty, transparency, accountability and the constitutional rights of every citizen.

These are not partisan ideals — they are basic pillars of public trust. Every citizen's vote is sacred. The vote is how we guarantee that our government remains of the people, by the people, and for the people. The Clerk-Recorder needs to operate independently of the Board of Supervisors and assure they adhere to the Brown Act. Unelected individuals are currently failing in this duty, misleading an inexperienced Board and resulting in backroom deals and non-transparency.

I do not plan to form a finance committee or accept campaign donations, to avoid “the influence of money in politics” and ensure my independence. We need to improve PRA requests, keep better minutes, maintain and protect records as well as recordings.

I have nothing to hide and I am not part of the political establishment. My commitment & loyalty are to the people of Tehama County — not to political parties, bureaucracies or special interests. Thank you for your consideration.
