

NOTICE OF EXEMPTION

TO: X Office of Planning and Research
1400 Tenth Street, Room 121
Sacramento, CA 95814

FROM: Tehama County-FCWCD
1509 Schwab Street
Red Bluff, CA 96080

☒ Office of the County Clerk-Recorder
Tehama County
633 Washington Street – Room 11
Red Bluff, CA 96080

Project Title:

California Stream Gage Improvement Program

Project Location - Specific:

The Project is located on the right bank of Mill Creek just upstream of the Hole-in-the-Ground Campground, located approximately 3 miles southeast of Mineral, CA (40.310113, -121.561172).

Project Location –
City: unincorporated

Project Location – County
Tehama County

Description of Nature, Purpose, and Beneficiaries of Project:

The County is proposing to install one stream gage unit to record streamflow data at Mill Creek (Project) as part of the California Stream Gage Improvement Program (CalSIP). CalSIP aims to expand and modernize the county's surface water monitoring network to support improved flood management, water reliability, and ecosystem protection. CalSIP is a statewide DWR grant program designed to help public agencies upgrade, reactivate, or install new stream gaging stations that monitor real time hydrologic conditions and contribute data to the California Data Exchange Center (CDEC). The program strengthens water management capabilities by filling critical data gaps in natural waterways. Within Tehama County, CalSIP supports the District's long term water management responsibilities by enhancing the accuracy and availability of streamflow data essential for (1) Flood forecasting and emergency response, (2) Groundwater-surface water interaction tracking, (3) Water supply planning, and (4) Environmental stewardship and regulatory compliance. The Project site, includes (1) a remote terminal unit (RTU) that consists of a data logger, bubbler unit, solar/battery system, and radio equipment housed in a steel enclosure, (2) conduit routed from the RTU to the toe of the streambed where it terminates, and (3) a staff gage will be installed in the streambed adjacent the conduit. The Project will have non-significant impact to local movement patterns of terrestrial wildlife species. Temporary effects due to noise and increased human activity during Project activities should not interfere with these local movement patterns over time or affect the ability of these species to forage or reproduce. No removal of vegetation and no earth disturbance is proposed.

Name of Public Agency Approving Project:

Tehama County Flood Control & Water Conservation District.

Name of Person or Agency Carrying Out Project:

Tehama County Flood Control & Water Conservation District.

Exempt Status: (Check one)

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
- ☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
- ☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- ☒ Categorical Exemption. State type and section number: Class 4, Section 15304 and/or Class 2, Section 15302 and/or Class 6, Section 15306
- ☐ Statutory Exemptions. State code number:

Reasons why the project is exempt:

The installation activities consist of non-significant impacts to the condition of the land. And the construction activities occurring at existing facilities consist of non-significant impacts to those facilities maintaining the same purpose, function and capacity in the existing water systems.

Lead Agency Contact Person:

Justin Jenson, Deputy Director

Area Code/Telephone/Extension:
