

Mike McGuire

Occupation: California State Senator

Donald Trump is shredding our democracy, gutting our civil rights, and enriching himself and his billionaire buddies, all while making life more expensive for the rest of us.

In Congress, I'll always defend California, protect voting rights, and hold ICE accountable. I'll fight to pass healthcare for every American, make billionaires pay their fair share, and finally hold President Trump to account.

This isn't just talk, it's exactly what I've done in the State Senate. When Trump stripped healthcare away from millions, I took decisive action to keep rural hospitals and all Planned Parenthood health centers open. I successfully fought to add thousands of permanent mental health and addiction beds and led the charge to pass Medicare for All in California.

Raised on a small family farm by my mom and grandma, I became the first rural Democrat to lead the State Senate in a century. I've gone to the mat for rural communities, building out rural broadband, making record investments in public schools, growing North State jobs, and expanding career training programs.

No one works harder to make our state more wildfire safe. I've led the way, doubling the number of CalFire firefighters, deploying a record number of fire prevention projects, and putting more fire engines on the road and more aircraft in the sky, including right here in the North State.

I'm proudly endorsed by the Democratic Party, local firefighters, nurses, and teachers. I would be honored to earn your vote on November 3.
