

My name is William (Bill) Ellis, I am running for city council for one main reason, that is:

TO FIX THE ROADS

Understanding with the rise in sales tax, is only to fix the roads.

But I don't think that is going to be good enough, I believe it's going to take the voice of the people, to push this through and get the roads fixed in our town.

I want to be that voice for you and if you vote for me, that's my primary goal.

I will see that the money is used for the main goal, to fix the roads in our town, I have served in the Army for 5 years, and I was in the active reserves for 3 additional years and was honorably discharged

While in the military, I had some injuries, that later in life, while working at Walmart distribution center, caused me to have major surgeries that has left me disabled.

I volunteer my time as much as I can to the local community when I'm not building Trikes for Disabled Vets at cost.

Vote for me, I'll be your voice at city council to get these roads fixed.
